DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Yamazaki et al. (US 5,818,070, hereinafter Yamazaki).

In regard to claims 1 and 19-20, in fig. 2I, Yamazaki discloses a semiconductor comprising:

a crystalline semiconductor film 102, fig. 1A, formed on an insulating surface 101;
an insulating film 106 formed on the crystalline film; and
a first signal line 126 and a second signal line 127 that partially overlap the crystalline film with the insulating film interposing therebetween, fig. 2I,
wherein the first signal line and the second signal line are connected to each other through a metal wiring line 140.

In regard to claim 20, TFT devices are used in display devices inherently, furthermore, see col. 12, lines 47-57.

Allowable Subject Matter

3. Claims 2-9 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 10/6/03 have been fully considered but they are not persuasive. Applicants submit that elements 126 and 127 in the cited are not signal lines. These layers are signal lines since they can be connected to the voltage supply. It is noted that high/low voltage supply carried signals.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

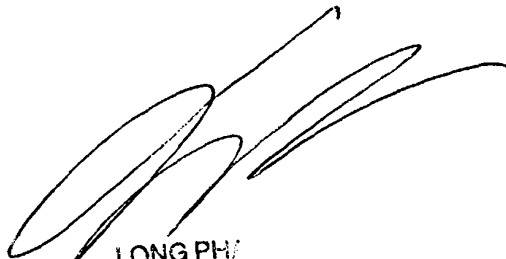

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
